1600 – 1615	HWG CONFERENCE WRAP-UP ACTION ITEMS/VOTING ISSUES REVIEW	MR. DAVID NGUYEN

HWG Issues

(1) 3 Prong adapter – Is this a requirement? No one in attendance could clarify if this is a requirement.

(2) Can USB memory stick replace floppy drives to support Public Key Infrastructure (PKI). Mr. Nguyen requested this become an action item.

(3) WI-FI wireless device will be an optional BLIN instead of base configuration.

(4) Does IP version 6.0 require hardware update? Right now it doesn't require an update according to Capt Schnitzer.

(5) Do the servers require DVD-ROM?

(6) On the MCHS web site, anytime a server is purchased a keyboard and mouse are included. One of our vendors had inquired if we want to include the keyboard and mouse with each server. It was decided to make keyboard and mouse an option on the BLIN.

HWG Issues

(7) Server support PS/2 KYBD/Mouse ports for KVM switch? After discussion

Mr. Nguyen stated this is a requirement.

(8) Include a second battery in the laptop base configuration? It was discussed that a second battery is already an option. MARFOREUR suggested external charger for second battery.

(9) Mr. Nguyen discussed changing screen size for the ruggedized laptop for the Panasonic CF-28 from 13.1” to 12.1”. Currently, Panasonic is the only vendor. Changing the screen size would allow other vendors to compete.

Mr. Nguyen stated screen size would be changed from 13.1” to 12.1”. The group agreed to change it to 12.1”.

(10) 15.4” or better wide screen for TFT for laptops. Basic size is 14.1”, it was decided to leave at 14.1”.

HWG Issues

(11) 2 vs. 1 PCMCIA slot – It was decided to make 1 PCMCIA slot

with an option of 2.

(12) Blade Server

(a) Proprietary enclosure

(b) Proprietary blades

(13) Tablet PC might require XP, XP-Tablet PC OS.

(14) "NET IQ" – Mr. Nguyen stated he wanted this included as a

requirement into current MCHS BPA for servers.

(15) Investigate dust covers with current BPA vendors.

(16) It was decided that Norton Utility be removed from

requirement.

(17) Carrying case discussion took place. Issue not resolved.
